KARL-FRANZENS-UNIVERSITÄT GRAZ UNIVERSITY OF GRAZ

To whom it may concern

14 November 2023

Subject: Research activities for Lic. Sabrina Ignacio during her stay in Graz in 2023

- Grinding of each freeze-dried muscle and liver sample
- Acid digestion of muscle and liver samples from different species of fish for human consumption
- Preparation of water samples associated with fish samples
- Preparation of calibration standards, solvents
- Analytical determination of total Arsenic, from each previously digested and prepared sample, through the use of inductively coupled plasma mass spectrometry (ICPMS)
- Analysis of preliminary results. Selection of samples to perform speciation analysis
- Organic extraction of muscle and liver samples from different species of fish for human consumption
- Preparation of extractions for subsequent analysis
- Preparation of calibration standards, mobile phases

BEREICH ANALYTISCHE CHEMIE

Universitätsplatz 1, 8010 Graz, Austria Telefon: +43 (0) 316 / 380-53 02 Fax: +43 (0) 316 / 380-98 45

E-Mail: walter.goessler@uni-graz.at www.uni-graz.at/achwww

VERSITÄT GRAZ

- Speciation analysis of organic and inorganic forms of arsenic through the use of high-precision liquid chromatography (HPLC) and inductively coupled plasma mass spectrometry (ICPMS), of the samples prepared previously
- Analysis of results (in progress)

Best regards

Ao.Univ.-Prof. Mag. Dr. Walter Goessler
